## MINING, BUSINESS AND STOCKS

## CON. MERCUR WAS A FEATURE.

Of the Trading Done on Floor of Mining Exchange During Today's Early Call.

#### STOCK OPENED STRONGER.

Tetro Also Made Some Advances-Dividend Had an Influence-Quotations and Sales.

Consolidated Mercur furnished a feature for the forenoon session of the mining exchange. The stock opened stronger and several of the brokers had buying orders for it. The closing bid was marked up at 24 cents, while the stock sold up to 25 cents. Daly-Judge appeared in the pit weak er, while Grand Central found favor at \$4.75. There was some selling of Century at last week's prices. Tetro was strengthered materially by the announcement of a \$3,000 dividend, which came as somewhat of a surprise on Saturday, but no stock transferred until the open board call, when it advanced to 33 cents. The management of the Tetro company has given the assurance

Tetro company has given the assurance that the dividends will come regularly hereafter. At least, it is announced, there is nothing in the conditions at the mine which would indicate that they will be paid spasmodically.

On the open board a 2,000-share lot of Colorado stock, which is said to belong to Bingham, was marked sold at two cents a share. Little is known of this stock. Yankee Consolidated was bought at 32 cents.

The closing quotations and sales were

#### BUSY TIMES IN TINTIC.

Uncle Sam is Shipping Three Cars of

special Correspondence. Eureka, June 5,-The Uncle Sam Con, Eureka, June 5.—The Uncle Sam Con, s very busy at present with a force of about 40 men employed. The mine is ooking better than at any time in its listery. At the mill a force of 10 men indisteady employment. Three cars of meentrates are shipped weekly from he mill. At the property of the Vicoria Mining company, in North Tintic, lefting is being done in the southwart. irifting is being done to the southwest of the shaft from the upper workings of the 150 foot level and Supt. R. S. Robertson is very enthuslastic over the uture prospects of the property.

#### PARK CITY MINING NOTES. ieveral Jigging Outfits Are at Work in Woodside Canyon.

Fred Flint is said to have leased the Silver King dam and tallings in Wood-side canyon. Mr. Flindt, it is said, will jut up a small concentrator without de-ay and proceed to work over the im-mense mass of tailings which contains very profitable values.

sery profitable values.

Several new jigging outfits are being placed in the Woodside canyon to work over the tailings from the Silver King mill. It is understood that several applications have been recently made for eases of sections of the creek, and unastal activity, in the worker of the creek. asual activity in this method of mining is promised soon.

Messrs. Allen and Bell are sinking for

Messrs. Allen and Bell are sinking for he Woodside vein at a point in the Pargroo group 600 feet north of Woodside tunnel No. 10, and, encouraged by present Indications, are pushing work apidly with a total force of five men. The shaft has reached a depth of seventy-five feet and a hanging wall of black lime has been encountered. Signa dicate that the contact is year pear.

plack lime has been encountered. Signs andicate that the contact is very near and a fine grade of white quartz has ilready begun to appear.

J. E. Nelson was over from the Nelson group Monday with samples big and little, which show a steady improvement in the ground. Mr. Nelson aid that at a depth of sixty-five feet be sulphides were concentration year.

was abandoned at a depth of sixty feet, and the ores will be followed from now on on the dip, which will necessitate a slight incline, Mr. Nelson was unable to say exactly when the proposed whim would be installed.

It is rumored that Mike Fitzgerald has sold the Ingersoil-Ontario to Mat Cullen and Jacob Moritz for \$15,000. Mr. Pitzgerald left for Sait Lake the latverse over on the east side of the range over on the east side of the range.

Cullen and Jacob Moritz for \$15,000. Mr. Fitzgerald left for Salt Lake the latter part of last week for the purpose of interesting capital in this promising group. Before leaving he showed several sacks of spiendidly looking quartz filled with crystalline from and containing high values in silver and lead. Mr. Fitzgerald described this rock as appearing in great quantities on the face pearing in great quantities on the face of the tunnel, and on such a showing the should not have experienced much the should not have experienced much difficulty in disposing of the property. Mr. McGurfin is said to have reported favorably on the prospect while here. The advent of Messrs. Cullen and Moritz in this region cannot but be of substantial benefit to the camp. The Lone Pine, one of the Snake Creek district's most promising prospects, began its summer campaign of development this week. Monday a force of men started work in the lower-tunnel, which was temporarily aban-

tunnel, which was temporarily aban-doned last summer. This bore into the formation is the outcome of all pre-vious experience in the development of the Lone Pine and is looked upon as of the Lone Pine and is looked upon as of great importance to the district. It will tap the formation several hundred feet lower than anything heretofore projected on the grounds and will reach the contact vein 500 feet from the surface of the dip. This it can do with comparatively little work, and in view of the fact that good seams of galena ores have been exprosed in the galena ores have been exposed in the several tunni workings highr up on the Lone Pine ground, the management feels very confident of the outcom. It is assured that work will be pushed until the object of the operations is attained.—Park City Miner.

#### MOUNTAIN CITY NEWS.

Late Information from the Nevada Camp Now Attracting Attention.

The Mountain City correspondent of the Elko Free Press gives the following review of conditions in that camp: The outlook for a profitable and prosperous camp this summer continues to grow brighter every day, for in doing the assessment work required by the state upon the numerous locations which have been made during the past two months, quite a number of very good prospects have been found, and on a number of them work will be con-tinued.

The find in the Nelson group continues to show up very rich, and improves with every foot they run into the hill, and an excellent feature of this discovery is the increasing gold values in the

ery is the increasing gold values in the ore as depth is attained on it, free gold showing plentifully in all of the rock now being taken out.

The ore chute, so far as drifted on, is now over 100 feet in length, and gives every evidence of continuing double that length into the mountain, and there is over 800 feet of ground to the north of where they cut it for them to drift that way on, for the vein in the north side of the choss-cut shows nearly four feet of as good ore as they have four feet of as good ore as they have found in any portion of the south drift. On the St. Patrick mine, where the phenomenally rich find was made, the vein, after faulting again, has been found, and with it some water, so that they are now making ready to erect a whim and will have it in operation within two or three days. The vein has widened out some and carries the same rich ore which was found above, and will probably make one of the big mines of the state when further work has

capitalists, has taken a bond on Colo., capitalists, has taken a bond on the group of claims belonging to the Messrs. Woodward and Walker, and will begin work on the some within 30 days, intending to put in a hoisting plant and sink at least 300 feet. The consideration is reported to be \$45.000. This gentleman, who has just visited Tonopah, appears to think that this district, with its record of past production from shallow depths, offers greater opportunities for paying propositions, with less chance of failures, than does the latter place, for here we have good, strong veins on the surface, while there they have to go it blind.

E. H. Meade, the mining engineer of Salt Lake, secured bonds on two or three very good groups, each having an

Sait Lake, secured bonds on two or three very good groups, each having an excellent showing, and he will be in here again next Saturday, with some of the people for whom he secured these options, and in all probability work will be at once begun on some of them by these parties. y these parties.

by these parties.

Town lots have jumped in price from nothing to \$100 per lot, and are still elimbing. Three new saloons are in course of erection, also a large merchandise store is now being stocked by the Plunketts of Tuscarora and they talk of moving their large hall and lodging house from the latter place, so look out for Mountain City in the pear future.

#### OFFICERS RE-ELECTED. Amalgamated Copper Directors Will Serve Another Year.

New York, June 6 .- At the annual New York, June 6.—At the annual meeting of the Amalgamated Copper company in Jersey City today, proxies for 1,040,000 shares out or the 1,538,000 shares in the compan were presented and all of the retiring directors were re-elected. The official reports said that the company's affairs were entirely harmonious.

#### GETTING SOME GAS.

Drill at the Union Well Has Encountered a Hard Formation.

Supt. Butterfield of the Union Gas & Pipe Line company was in today from the well now being driven by that cor-poration near Centerville. He says the drill has encountered a very hard cement formation and is making pro-gress slowly. Small pockets of gas are eing struck almost every day, but it as not been encountered in such vol-ime as to become troublesome. Mr. Butterfield predicts that something of mportance will huppen before the irill proceeds another 190 feet. Manager Bigger, who is now in the east, is expected to return the latter part of the week.

#### IN FROM FISH SPRINGS.

Supt. Crismon Reports Conditions Satisfactory at the Utah Mine.

Supt. Charles Crismon of the Utah mine at Flah Springs is in from camp again to confer with local officials of the company. He reports conditions as being very satisfactory at that property. With the condition of the coads improving shipments will come

#### THE LIBERTY ADIT.

Preparations Under Way to Operate

Blue Ledge Property Vigorously. The Liberty Mining company, operating in the Blue Ledge mining district, near Park City, is preparing to commence an active campaign at that property. The company is driving a long tunnel, with the purpose of cross-cutting the formations and tapping the ledges which penetrate the territory to a depth of about 1,000 feet.

The adit is now into the mountain for a distance of 600 feet, and a small force of men is engaged there at the

he sulphides were concentrating very for a distance of 600 feet, and a small apidly. The idea of a straight shaft force of men is engaged there at the

company.

The principal workings are located below the Hawkeye-McHenry property over on the east side of the range from the town of Park City.

#### IN MT. NEBO DISTRICT.

The Nebo Company Developing by Means Of a Tunnel.

P. J. Donohue spent yesterday at the property of the Nebo Mining company in the Mt. Nebo mining district, where he states good headway is being made with the driving of the tunnel towards the ore bodies. The adit is completed to the length of about 125 feet. Mr. Donahuo looks with favor upon the Mt. Nebo district and believes it will make a good account of itself in a little time,

#### Tetro Declares a Dividend.

Another mine has been enrolled among Utah dividend payers. At a meeting of the directors of the Tetro Mining company on Saturday afternoon it was decided to divide \$3,000 among the shareholders on July 1. The company's books close on the 25th inst.

#### CONCENTRATES.

party of officials of the Johnny Gold Mining company departed for Stateline on Saturday night. It con-sisted of Henry Newell, Frank Judge, Frank M. Wilson and W. J. Halloran.

The Silver King Consolidated mine at

Park City is to become active again after idleness covering a period of three months. It is to be equipped with new machinery and operated upon an extensive scale. Postmaster J. G. Stillwell is down

from Alta today. He reports that the roads are getting in fairly good shape again, and with another day or two of sunshine they will be pretty well dried up all the way into camp. The Humboldt Queen mine, in the

The Humboldt Queen mine, in the mountains six miles east from Ryepatch, has been bonded by Messrs, George L. Pitt and H. C. Hardesty, the present owners, to Messrs, W. C. Pitt and Frank Crumpacker. The bond runs for one year, but will probably be taken up much sooner, as the work now being done on the mine is showing up. ing done on the mine is showing up very favorably.—Lovelock (Nev.,) Trib-

Higginbotham & Lang are now getting out some fine specimens of coal from the mine across the river. The vein is widening as depth is obtained, and every indication points to the opening of a large body of coal. Some of that tested lately burns freely and throws out great heat. The compose throws out great heat. The owners have worked hard to develop this mine and are deserving of success.—Elks Free Press.

F. Holden, managing director of A. F. Holden, managing director of the United States Mining company, ar-rived from the east yesterday and is looking over conditions at the smelter at Bingham Junction today. He says conditions are very dull in the east at the present time; there is a general curtailing going on everywhere and, as a consequence, there are a good many men out of employment. The west, Mr. Holden says, is in a much better con-

The Golden Crown group, consisting of the Golden Crown, the Moore and the Burns claims, situated on Rock creek, about a mile east of the Smidt ranch, has just been taken hold of by an eastern syndicate that agrees to begin development work within 20 days and to pay \$15,000 for the property, in two payments. The first payment is to be made the first day of Aupgust, 1904, and the other within 10 months thereafter.—Wood River Times. after.-Wood River Times.

Prof. W. H. Tibbals is in receipt of a letter from Thomas Ewing of Los Angeles, one of the directors of the American Mining congress, who recognizes the advantages of Salt Lake over other competitors for the permanent headquarters of the congress With a little organization on the port of the Commercial club, the Real Estate Men's association and the mining men of this state, the belief is expressed, this city can win out in the fight to be made at Portland, Oregon, next August. at Portland, Oregon, next August.

#### NOTICE TO CONTRACTORS.

NOTICE IS HEREBY GIVEN THAT sealed bids for the construction of an addition to the headquarters of the fire department building of Sait Lake City, will be received up to 12 o'clock noon of June 15, 1904, by the undersigned at the office of the chief of the fire department of said city.

office of the chief of the fire department of said city.

Plans and specifications are on exhibition at said office. A certified check for \$500 as a guaranty of good faith must accompany each bid. All bids will be publicly opened at said office at 12 o'clock noon of said June 15, 1904. All bids are subject to the action of the city council thereon, and the right to reject any and all bids is hereby reserved.

Dated June 1, 1904.

Chief of Fire Department, Salt Lake City.

#### NOTICE.

State of Utah. Department of Board of Pardons, Salt Lake City, Utah. June 4, 1994.—To Whom it May Concern: Notice is hereby given that the State Board of Pardons will hold a regular session on Saturday, June 18, 1994, at 10 o'clock a. m., at the Supreme Court Room, City and County Building, Salt Lake City, Utah. That at said meeting said Board will hear applications for pardon in the following cases, to-wit:

Pardom-Frederick George, murder: Nathaniel P. Proyor, assault with a deadly weapon; J. S. Harmon, burglary: Charles A. Lausen, rape.

oh
For Parole—J. Leo Willis, grand larceny; Harry Pool, robbery.
All persons having any interest therein, desiring to be heard, either for or against the granting of said applications respectively, are hereby notified to be present at said meeting.

By order of the Board.
HEBER M. WELLS, President.
M. A. BREEDEN, Secretary.

# MUCH MIXED.

Few Stocks Were Traded in and They Showed Small Gains And Losses.

#### PRICES MADE A CREAT SAC.

Minor Railroads and Industrials Broke Heavily on Light

Offerings.

New York, June 6.-Only a dozen stocks were quoted in the first five minutes of the trading and of these half were un changed. The others showed mixed gains ind losses of 14 to 14 per cent. General Electric preferred rose a point. Ontario and Western touched 251/2 before the demand for it was satisfied. Prices then sagged to below last week. Amalgamated Copper lost its rise. Losses of 1 to 11/4 were made by the Colorado and Southern stocks, Tennessee Coal and Cotton Off preferred. United States preferred and Locomotive fel domerate fractions.

Bonds were irregular. Minor railroads and industrial stocks broke heavily on small offerings. Business other quarters was practically suspended. Chicago Great Western fell off 1, the preferred "B" 5, and the preferred 'A" 8 points without adeuate explana-

tion.

With the exception of the sensational decline in Chicago Great Western Securities there was nothing to relieve the duliness. Selling of Chicago Great Western ocumon and the preferred "B" ceased abruptly, but the preferred "A" slumped again to 47½, a loss of 13½. International Pump extended its loss to 3½.
